Electronic Prescription Service

A new way to get your medicines and appliances

The NHS is introducing the **Electronic Prescription Service**. This could make collecting prescriptions easier and more convenient for you.

This service gives you the option to 'nominate' the place you choose to get your medication or appliance from, so that they can receive your prescriptions electronically. This could save you a trip to your GP practice just to collect a prescription form - particularly if you have regular prescriptions.

Simply fill in the form overleaf and return it to a member of the pharmacy team
